Crawling Insect - Preparation Instructions

In order to ensure the best treatment results for crawling insects you must complete the following items.

- All cabinets in kitchen under sinks and places that insects have been seen must be emptied.
- All kitchen counter tops must be cleared off.
- All cabinets under sinks in bathrooms must be emptied.
- Everything must be moved away from the walls in all areas.
- Everyone must be out of the house for 2-4 hours after treatment. If anyone in the home is pregnant, they must be out for 24 hours. If anyone has breathing problems, such as asthma they must be out for 6-8 hours.

If you're getting the exterior treated, please refer to the exterior checklist
